

List of planned proficiency test programmes for 2022
 conducted by Mogilev Centre of Standardization, Metrology and Certification
Electrophysical measurements

Item No.	Name of proficiency test programme	Type of testing	Planned period of testing	Technological Regulatory Legal Acts, setting requirements for testing methods
1	Insulation resistance test ППК.МГ-01-2015	Insulation resistance, MOhm	Round No.1 completed	Method of testing, included in the field of accreditation
2	Contact joint check. Transition resistance measurement ППК.МГ -02-2015	Resistance, Ohm	November-December	Method of testing, included in the field of accreditation
3	Residual Current Circuit-Breaker Control. Measurement of breaking differential current ППК.МГ-03-2015	Breaking differential current, mA	Round No.1 completed	Method of testing, included in the field of accreditation
4	Circuit testing of 0-phase in electric plants up to 1 kV with solidly-earthed neutral. Resistance test of circuit "0-phase" ППК.МГ-05-2015	Full resistance of "0-phase" loop in electric plants with voltage up to 1000 V	Round No. 1 completed	Method of testing, included in the field of accreditation

**APPLICATION
for participation in proficiency test programme**

Name of programme: _____
(State a programme from list of ones at www.mcsms.by)

Applied method (Technological regulatory Legal Acts): _____

Applied tools of measurement: _____

Name of laboratory: _____

Name, patronymic, surname and position of Head of laboratory: _____

Address and telephone of laboratory: _____

E-mail for correspondence on issues of proficiency test fulfillment: _____

Name of enterprise (organization), if laboratory is its subdivision: _____

Name, patronymic, surname and position of Chief Executive of enterprise (organization) _____

Address and telephone of enterprise (organization): _____

Bank account (stating bank): _____
account type (budget-non-budget): _____

Financing source: _____

Payment is made from accounts of Treasury Department (yes/no): _____

TIN _____ OKPO _____

The present document shall oblige the Applicant, participating in the proficiency test programme (laboratory, enterprise), to do the following:

a) fulfill all the requirements, provided by the proficiency test programme and the Instruction for participants to make measurements and protocols, including comply with established periods of proficiency test round execution;

б) pay expenses, associated with proficiency test programme;

в) reimburse expenses, associated with execution of the present application, in case of refuse to participate in it.

Information for Client

Organization and conduction of proficiency test of Physical Research Laboratory by means of inter-laboratory comparisons

Mogilev Centre of Standardization, Metrology and Certification organizes and conducts inter-laboratory comparisons, in particular, programme of laboratories proficiency test in accordance with State Standard ISO/IEC 17043-2013 "Compliance assessment. Main requirements for proficiency test conduction".

For accredited laboratories participation in inter-laboratory comparisons is an integral part of technical competence prove in Accreditation system of the Republic of Belarus. According to requirements of Technical Code of Common Practice (TCP) 50.10-2011 "Accreditation order" laboratories must participate in programmes of inter-laboratory comparison tests in all fields of accreditation, conducted by organizations-providers.

If You want to take part in a proficiency test programme, please fill in application for participation, using the blank (stating the name of proficiency test programme) and send it by Email: csms_mogilev@mogilev.by or by fax +375 (222) 72-12-78.

Proficiency test programmes, designed and used by the Provider, can be seen here

The application for participation is the basis for conclusion of a Contract for proficiency test execution.

We invite test laboratories to take part in the planned proficiency test programmes.

Please send Your offers and requests on opportunity to organize special inter-laboratory comparisons by Email: csms_mogilev@mogilev.by, or call (0222) 72-12-78
